## 1998 Nesbitt Fire Diabolo

The Nesbitt Fire Diabolo is the 1998 re-release of this superb prop. As in previous models, the sides on this diabolo are attached by springs, allowing the plates with the wicks to slide. Thanks to these shock-absorbers, this diabolo can take amazing impacts with no damage. The wicking on this model is held in a cage, allowing a more even weight distribution and a more solid spin than the previous model. All in all, Nesbitt has taken the best fire diabolo on the market and made it better. It comes with fireproof diabolo string and wood hand sticks.

\$95.00

## Micro Diabolo

Our smallest diabolo is 2.5" in diameter and is ideal for high tosses. We've fired this puppy over 8 stories in the air. Available in assorted two-tone colors. Handsticks included.

\$10.00

## Medium Diabolo

Our smaller model diabolo, 4" in diameter. Good for beginners, children and just plain fun. Available in blue glitter, yellow glitter, and red glitter. Handsticks included.

\$18.00

## Jumbo Diabolo

Our new larger diabolo (5.5" wide x 5" diameter) is a professional quality diabolo priced for the beginner. Made light for ease of use, this flexible plastic diabolo is bright, durable, and holds its shape better than any rubber diabolo. It comes in Red, Yellow, and Blue. Includes 18 inch wooden handsticks. (263gm)

\$26.00

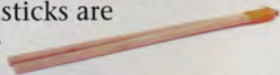

## Monster Diabolo

This diabolo is simply HUGE! (8 inches wide x 8 inches diameter) If you want to be seen from the back of the stadium, this is the one for you. Made from rigid plastic, this diabolo is very stable. Intended for tricks rather than throws—you don't want this one landing on your head. Includes 18 inch wooden handsticks. (412gm)

\$40.00

## Extra Diabolo Handsticks

Our high quality diabolo handsticks are available separately. \$4.00/pair

## Infinite Illusions Juggling Torch

This is the best torch on the market and we're proud to say so! Light and comfortable in use, sturdy in construction, flashy and eye-catching in appearance.

**Wick:** Woven fiberglass wicking, 2 feet long and 2 inches wide, wire-reinforced for durability, screw-mounted for easy replacement.

**Neck:** The aluminum neck extends from the wick through the torch body, so the neck doesn't snap.

**Faceplate:** Aluminum faceplate and rubber shock-ring protect the torch body from both flame and concrete.

**Body:** As light as possible, for easy juggling and to minimize the shock of going from clubs to torches. Holoplaid decoration looks dazzling in motion or under stage lights, while holographic pattern hides wear.

**Handle:** Flexi-wrapped plastic like custom clubs, for familiarity and comfort of handling. Holoplaid decoration is flexi-wrapped with plastic, rather than simply applied over handle, so that the decoration won't lift and peel with use.

Torches: \$28.00 each  
Holoplaid silver, yellow, red, blue available.

Anything must be tough if it's going to be habitually set on fire and dropped . . . our torches do it with style and still look great!

## Replacement Wicking

Torch Replacement Kit for one torch (with screws & washers) ..... \$4.00  
Fire Devil Stick Replacement Kit (wick, screws & washers) ..... \$7.00  
Fire Staff/Flag Replacement Kit (all wicks, screws & washers) ..... \$12.00  
Bulk Wicking ..... \$1.00/foot  
\$75.00/hundred foot

## Juggling Rings

Rings are a great addition to any prop bag, as visible as clubs and almost as easy as bean bags. Our rings are 12 3/8th inches in diameter with smooth rounded edges for easy catches. Glitter polypropylene plastic makes our rings distinctive and eye-catching, as well as stiff and sturdy for long use. Available in green, red, blue, yellow, and orange; please specify alternate choices.

\$5.00 each

## Acrylic Balls

Lower Price!

Still the original and still the best. Our clear, tough acrylic balls are great for 'toss' juggling, contact juggling and all ball manipulation. The surface lightly grips the skin without noticeable friction against other acrylic balls. Machined to 5/1000s of an inch accuracy and polished to optical clarity, these are without a doubt the finest on the market.

2.5 inch diameter \$12.00 each

3 inch diameter \$20.00 each

## Square Bean Bags

Our square bean bags are sewn from cotton cloth and filled with millet. Low cost and sturdy construction makes them ideal for beginners. Also great for clubs with high memberships and low funds. Available in assorted colors with gloriously obnoxious patterns on the side panels.

\$3.50 each

## Squeeze Bean Bags

These round, squeezable, millet-filled bean bags are comfortable in the hand and eye-catching in the air. The surface material is stretch nylon bonded to shiny and durable vinyl. The vinyl grips the skin well, the stretch nylon makes for soft catches, and the 2.5 inch diameter is just the right size for most jugglers' hands. Blue/green, red/blue, blue/yellow, yellow/red, red/yellow and silver/black.

\$6.00 each

## Spinning Plate

Our plastic spinning plate is a good choice for beginners and young jugglers. Comes with spinning stick.

\$9.00

## The Infinite Illusions Devil Stick

26" sturdy hardwood tapered to the center and covered in our distinctive Holoplaid decoration with metallic trim. We've kept our Devil Stick as light as ever for quick response and more finesse. The Holoplaid decoration wears well and looks fantastic under stage lights. Durable tenoned foam rubber end caps protect the body and increase the prop's life. The Devil Stick comes with our 20" handsticks, which are silicone covered for maximum grip and 7/16 inch thick to eliminate breakage. UV decorations (fluoresce under black light) are also available

\$26.00

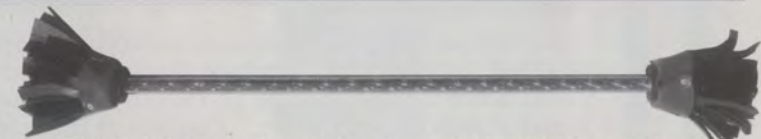

## Fire Devil Stick

The Fire Devil Stick is heavier and slightly thicker than our regular model for slower movement and better control. Three full feet of wire-reinforced fiberglass wicking is screw-mounted on each end. The length of the stick is foil-wrapped in aluminum for heat protection with a sleeve of aluminum flashing extending 2 inches below the wick to protect against the direct flame. As with any fire prop, the Fire Devil Stick requires skill and caution on the part of the user.

\$32.00

## Hip Stick

Perfect for beginners! The bright tassels on the sleeved straight hardwood stick concentrate mass at the ends, making for slower spin and easier control. The clear vinyl sleeving protects the Holoplaid decoration and reinforces the body. Comes with our silicone-sleeved handsticks.

\$20.00 (holographic)

## Extra Devil Stick Handsticks

Our 20" silicone covered handsticks are 7/16" thick and are available separately. \$4.00/pair

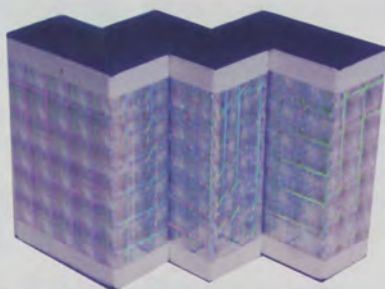

## Fire Staff

Our new and improved Fire Staff brings pole-spinning and staff manipulation to the next level. Our standard length is now 5' and we've replaced the aluminum of our previous model with steel for greater rigidity. Double wicked ends assure long burn times and amazing brightness. Custom lengths available. \$42.00

## Fire Flag

This unique product combines aspects of pole-spinning and torch swinging. It is made from the same high quality materials that make our new Fire Staff design durable yet light in weight. One end features 8" of our long-burning wicks for a bright display while the other end has a knob similar to a torch end. 5' long, custom configurations available. \$43.00

## Cigar Boxes

Our boxes are lightweight, strong, and easy to manipulate, using the finest birch plywood. The ends are covered with black suede, while the sides are decorated with holoplaid to dazzle audiences and hide wear. Call for availability and holoplaid color selection.

\$18.00 each

## Rolla-Bolla

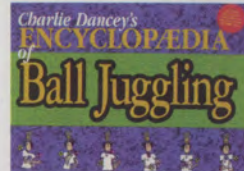

We've taken the classic board-and-roller balancing prop and added a guide-track to reduce turning and sideslip problems. Our roller is white pvc, nigh-indestructible, with a 6" diameter and a deep center groove. Our board is birch plywood, 36" long, with friction tape for traction and a clear-coat natural finish. The board features a 3.5" wide underside track that fits smoothly into the grooved roller. Easy to use and always an impressive addition to the act! Custom board-lengths available.

\$75.00

## Tom Kuhn

In 1976 Tom Kuhn received a wooden yo-yo as a gift. He hadn't seen one since the 50's. When it broke on the first day, a quest for the perfect yo-yo began. He started by using nothing more than jig saw and sand paper. These crude early models were quickly replaced with models featuring a replaceable wooden axle. Tom fulfilled his patriotic duty in 1985, when he became a consultant to NASA for yo-yo design for the *toys in space* project.

### Beginners

A black & red wooden yo-yo, double looped for beginners. Both the shape and the logo are reminiscent of wooden yo-yos from the 50's. A great collectible! \$10.00

### Original No Jive

A fine one-piece wooden yo-yo. A beautifully finished hardwood that performs well in all areas. Comes with velvet pouch and extra strings. \$15.00

### No Jive 3 in 1

The first take-apart wooden yo-yo, it can be reassembled in 3 different configurations, adding a new dynamic of play. Comes with extra strings and replacement wooden axle sleeves. Available in natural, red, blue, and black. \$20.00

## Henry

### Viper

From Germany comes a great new yo-yo design! A ball-bearing transaxle yo-yo whose string gap is adjustable with a simple twist, modeled after a diabolo in design. Springy rubber edges make for a more comfortable grip and butterfly design makes string tricks easier. \$45.00

## Maui

### Rock and Roll Yo-Yo

This yo-yo not only lights up, but sings your choice of several classic rock and roll hits! Choose from:

- Wipeout
- La Bamba
- Can't Buy Me Love
- Tequila
- California Girls
- The Lion Sleeps Tonight.

Not a great performer, but a cool novelty gift. Please list alternate song choices. \$6.00

## Silver Bullet 2 and Silver Bullet 2A

This yo-yo has a spun aluminum body, a ball-bearing transaxle, an adjustable string gap and is rim-weighted for maximum spin. It was designed in part for NASA and it became the first yo-yo in space! It comes in gift box with flight manual, strings, velvet pouch, string gap tool, and spare ball bearing. The Original Silver Bullet 2 is silver aluminum in color. The Silver Bullet 2A

has an anodized tortoise-shell finish for that extra touch of elegance.

SB2 \$89.00  
SB2A \$99.00

### Roller Woody

A ball-bearing transaxle made of maple. The string gap is adjustable allowing you to "customize" the yo-yo. Comes in a gift box with string and instructions. \$50.00

### Sleep Machine

A maple ball-bearing butterfly transaxle. The string gap is adjustable, allowing you to "customize" the yo-yo. It's ideal for string tricks. Comes in a gift box with string and instructions. \$50.00

### Other Yo-Yos

We often have Silver Bullet 1 and Mandala yo-yos in stock. Please contact us about our current stock and prices.

## Fanny Pack

A black fanny pack, available with either logo. Keep your yo-yo in easy reach! \$12.00

## Yomega

Alan Amaral, president of the Yomega Company, introduced the first line of economical transaxle yo-yos. The line is built around the Brain, a transaxle yo-yo with a clutch. This innovation was followed by the plastic transaxle and many other yo-yo developments.

### Brain

Designed for Yomega by Michael Caffrey, this is the first yo-yo to feature a patented clutch mechanism that causes the yo-yo to automatically return. Ideal yo-yo for beginners. \$12.00

### Fireball

Plastic imperial shaped yo-yo with a Delron transaxle, allowing for 50% longer spins than any fixed axle yo-yo. Great for most tricks, recommended for advanced players. \$8.50

### Power Spin

A plastic yo-yo with the same Delron transaxle as the Fireball, but in the modified body shape with recessed sides, making the yo-yo a bit lighter. Recommended for advanced players. \$8.00

## What's Next

Brad Countryman, owner of What's Next, is the master of wooden yo-yos. He was the designer behind Hummingbird yo-yos, and now makes the wooden yo-yos for Tom Kuhn and Duncan. These are his own master designs.

### Apollo Pro

One piece plywood wooden yo-yo in the butterfly body shape. Excellent for string tricks, this yo-yo is great for learning "Trapeze". \$10.00

### Rainbow

One piece plywood wooden yo-yo. Excellent for all types of tricks. Cool rainbow design. \$10.00

### Raider

The body of the Fireball, but with a ball-bearing transaxle for even longer spins! Great for all tricks and preferred by professional Yomega demonstrators, Team High Performance. Recommended for advanced players. \$25.00

### RB2

The body of the Power Spin, but with a ball-bearing transaxle for even longer spins! Great for all tricks and also used by Team High Performance. Recommended for advanced players. \$25.00

### Phantom

Just like the Blackbird, but painted pink, teal, or purple. \$5.00

### Hardwood Special

Just like the Blackbird, but with a natural wood grain finish. Classic. \$5.00

## Playmaxx

PlayMaxx was founded by Donald Duncan Jr., son of the original founder of Duncan Yo-Yos. Don Jr. created the Pro-Yo, a radically new yo-yo design, and PlayMaxx, a new company to sell it. The Pro-Yo was the first rim-heavy flywheel-design yo-yo, and the first take-apart yo-yo. These innovations are now in wide use from the Power Spin to the Silver Bullet.

### Pro-Yo II

Plastic take-apart yo-yo that uses three point injection molding for perfect balance. This is great for all tricks. Uses a replaceable wooden axle sleeve. \$8.00

### Turbo Bumblebee

Similar to the Pro-Yo II, but with a ball-bearing transaxle for long spins. Uses a new form of positive grip for better looping control than most transaxles. \$30.00

### Pro-Yo II Ultimate

Same as the Pro-Yo II, but more! Comes with spare axles, extra string, extra side panels, and a display box. \$15.00

## Premier

### Junior

Similar to the Duncan Imperial, only lighter for the ease of the younger players. Plastic with a brass axle, this yo-yo is great for beginners. \$2.00

### Master

An excellent alternative to the now discontinued Jack Russell yo-yos. Lightweight, plastic yo-yos with a wooden axle, and body shape reminiscent of the Russell yo-yos. Good for two-handed play. \$3.00

### Butterfly

Similar to the Duncan butterfly, but with a wooden axle. Very lightweight, but a surprisingly good performer. Butterfly design makes it good for string tricks. \$3.00

### Professional

Similar to the Duncan Professional, but lighter and with a brass axle. Excellent looper, and the light weight makes practicing those loops less tiring. \$3.00

## Spintastics

Dale Oliver, master yo-yo player and world champion, took his 40+ years of professional yo-yoing experience to combine the best innovations in the industry to produce these excellent yo-yos.

### Terminator Technic

One of the best all-around yo-yos on the market. Plastic rim-weighted body, wooden axle sleeve for maximum control, and a take-apart design make this yo-yo a solid choice for beginners and professionals alike. \$6.00

### Terminator Tornado

Similar to the Technic, but with a ball-bearing transaxle for maximum spins. Take-apart plastic yo-yo with a new internal design that keeps all parts where they should be. \$12.00

## SuperYo

SuperYo is the new kid on the block. Professional demonstrator Arne Dixon designed these yo-yos for SuperYo with kids in mind. They are all take-aparts, work well, and have few or no parts to lose.

### Cruiser

Much like a Duncan Butterfly, this yo-yo is a plastic butterfly design with the bonus of being a take-apart! Great for beginners. Also in Glow-in-the-Dark. \$5.00

### Sonic Spin II

A plastic take-apart yo-yo with a ball-bearing transaxle. It is ideal for players who prefer a heavier yo-yo. This yo-yo uses a plastic-housed bearing which makes a cool buzzing sound. \$15.00

### SpinBoss

A plastic take-apart yo-yo that can be reassembled in three different ways: standard, butterfly, and camel. It is heat sensitive and changes color at a touch. \$10.00

### Turbo Tread

A plastic yo-yo shaped like a tire. A take-apart with a brass axle, this yo-yo is good for all tricks. The modified design makes for longer spins and good loops. \$7.50

## Yo-Yo Videos

A classic wooden top with a plastic "no mar" point, making it great for indoor use. Solid and well balanced, this is the design that children have played with for over a century! \$6.50

### Toyrcrafter Deluxe Toss-N-Spin

At 4.5" tall, this top is much larger than the Toss-N-Spin. This top is turned from New England hardwoods and beautifully stained. Comes in its own hand-made hardwood box, with string, instructions, and extra tips. Uses a replaceable plastic "no mar" tip, safe for use indoors and out. A beautiful and playable top, it's great for games and tricks. \$50.00

## Tedco Gyroscope

A sturdy plastic and metal gyroscope, this science toy has fascinated children for generations. Well balanced, this gyroscope is great for plenty of tricks and is used for physics lessons in schools nationwide. Comes with string, stand, and trick sheet. \$10.00

## Top Stand

A white plastic stand for displaying your favorite spin tops, old and new. A cool way to display your collection of great tops from Infinite Illusions! \$1.00

## The Duncan Wizzer

Duncan Toys has re-released this classic friction top of the 50's. The Wizzer comes with an assortment of attachments to allow it to perform amazing feats that seem to defy gravity. The Wizzer is not spun by a string, instead it is rolled along

the floor, causing an internal gyroscope to be revved to speed. This allows the youngest player and oldest hand both to enjoy and get the most out of this truly unique top. \$5.00

## Duncan

### Imperial

The classic pop-top from Duncan Toys. The crown opens for string to be stored internally. Excellent for all top tricks and games. Check out the Duncan Yo-Yo and Spin Top Trick Book too! \$6.00

## Premier

### Galaxy Top

An excellent pop-top, similar to the Duncan Spin Top. Comes with great string, which can be stored inside the top. Excellent for all top tricks and games. \$4.00

### Junior

A good, hollow plastic spin top, slightly larger than the Galaxy. Not designed for tricks, but excellent for top games. One piece. \$4.00

### Premier Gemini

A nested splitting top, it's two tops in one! Throw as one and it splits, allowing both to spin individually. Nested design allows for some really cool tricks, and the smaller top can be thrown by itself. Very cool. \$4.00

### Jumbo Top

Larger than the Junior, this top is very visible. Excellent for top games and good for tricks, but with a slightly different feel and throw. One piece. \$4.00
